requests/day limit removed and all premium API endpoints enabled, among other prizes. [Join the Alpha Tournament today](https://www.alphatournament.com/) (<https://www.alphatournament.com/>)!

You support both raw and adjusted intraday/daily/weekly/monthly time series. What adjustment method are you using?

We use the adjustment methodology from the Center for Research in Security Prices (CRSP) (<https://www.crsp.org/products/documentation/data-definitions-f#factor-to-adjust-price-in-period>), an industry standard.

I have built a library/wrapper for Alpha Vantage with a specific programming language. May I open-source it on GitHub?

Certainly - we truly appreciate the help and support from the community to make Alpha Vantage even more accessible and developer-friendly. However, we ask that your language-specific library/wrapper preserves the content of our JSON/CSV responses in both success and error cases. We consider it a top priority that our users get the original debugging and troubleshooting information from Alpha Vantage.

I would like to improve an existing API or propose a new technical indicator / feature to Alpha Vantage. What should I do?

We are obsessed with delivering the best user experience with the highest technical expertise. Please share your feature
